

- Promote your business using local and mobile-friendly, city landline numbers.
- Unify each and every caller's experience using interactive advanced call plans.
- Ensure callers never hear 'engaged' or 'dead' tone or their call rings 'unanswered'.
- Measure ROI, quantify call responses, review monthly call statistics.
- Keep your business telephone numbers for life - even if you move office.
- Promote with a local city presence, creating a perceived 'local service'.
- Appeal to mobile callers - 01/02 numbers are included in mobile bundles.

Facts on National 01 Number Services

- Landline calls from within a local area code are charged at a local rate.
- Take numbers with you when you move offices, making numbers 'virtual' is seamless.
- No access charges are applied by any network operators to dial any 01 or 02 numbers.
- Caller pays local or national rate, this is usually between 1.5p/minute up to 8p/minute.
- Owners of virtual landlines must pay to receive calls through the 'advanced inbound platform'.
- As of 2011 'now more mobile minutes than fixed line minutes' now everybody uses their mobiles.
- When called from abroad, virtual 01 and 02 numbers work exactly like any traditional landline number.
